## About Book

*Environment and Society: Global and Local Perspectives* is an interdisciplinary edited volume that explores the dynamic and complex relationships between environmental change and human societies across the world. Bringing together contributions from scholars, researchers, and practitioners, the book examines how global environmental challenges—such as climate change, biodiversity loss, pollution, and resource depletion—are experienced, interpreted, and addressed at local, regional, and global levels.

The chapters in this volume highlight the social, cultural, economic, political, and ethical dimensions of environmental issues. Emphasizing both theoretical frameworks and empirical case studies, the book demonstrates how local knowledge, indigenous practices, governance systems, and community-based responses interact with global environmental processes and policies. By integrating perspectives from sociology, geography, environmental studies, anthropology, economics, and political science, the volume offers a holistic understanding of environment–society interactions.

### Sub-themes

<ul style="list-style-type: none"><li>• Environment–Society Interactions and Theoretical Perspectives</li><li>• Climate Change: Global Impacts and Local Responses</li><li>• Sustainable Development and Environmental Justice</li><li>• Indigenous Knowledge Systems and Environmental Management</li><li>• Natural Resource Governance and Policy Frameworks</li><li>• Urbanization, Environment, and Social Change</li><li>• Biodiversity Conservation and Community Participation</li><li>• Environmental Health, Pollution, and Society</li><li>• Gender, Environment, and Livelihoods</li><li>• Agriculture, Food Security, and Environmental Sustainability</li><li>• Globalization, Economy, and Environmental Change</li><li>• Disaster Risk, Resilience, and Adaptation Strategies</li><li>• Culture, Ethics, and Environmental Values</li><li>• Technology, Innovation, and Environmental Sustainability</li><li>• Local Case Studies and Comparative Global Perspectives</li><li>• Comparative North–South Environmental Challenges</li><li>• Pandemic, Environment, and Society</li></ul>	<ul style="list-style-type: none"><li>• Political Ecology and Power Relations</li><li>• Environmental Movements and Social Activism</li><li>• Climate Migration, Displacement, and Refugees</li><li>• Commons, Property Rights, and Resource Conflicts</li><li>• Water Governance, Scarcity, and Social Inequality</li><li>• Energy Transitions and Society</li><li>• Environmental Education, Awareness, and Communication</li><li>• Traditional Ecological Knowledge and Cultural Sustainability</li><li>• Coastal, Marine, and Island Ecosystems and Communities</li><li>• Forests, Land Use Change, and Indigenous Rights</li><li>• Environmental Law, Institutions, and Governance Mechanisms</li><li>• Risk Society, Uncertainty, and Environmental Decision-Making</li><li>• Corporate Responsibility and Environmental Accountability</li><li>• Tourism, Environment, and Community Development</li><li>• Circular Economy, Waste Management, and Society</li><li>• Environmental Ethics, Religion, and Worldviews</li><li>• Human–Wildlife Interactions and Conflict</li><li>• Digital Technologies, Data, and Environmental Management</li><li>• Any Other</li></ul>
